

Dear Friends,

at first many greetings from Prague again and I hope you and your family, friends and colleagues are fine and healthy!

After monitoring the situation all over the world and deep discussions we came to the final decision: YES, the 15<sup>th</sup> GARRM workshop will be held this September, as announced: International Workshop on the Geological Aspects of Radon Risk Mapping, (22nd-24th/25th/ September, 2020), connected again with the Radon Intercomparison Measurements (21st September, 2020).

We will do our best to prepare (again) unforgettable atmosphere and at the same time to provide all necessary hygienic and health conditions. We hope the situation will be step by step better and better in all countries, the travelling conditions will become simpler and the states will open the borders (as it is already happening).

Enclosed please you can find (again) the second circular for the GARRM Radon workshop and RIM. We have extended the terms for lower fees and for the presentations/abstracts till the 24th of July. All the necessary info (and registration) you can find also at the workshop webpages:

[www.radon.eu/workshop2020](http://www.radon.eu/workshop2020)

Few remarks to the second circular:

.. there are basically two possibilities of payment - through the bank transfer or in cash during the registration in Prague (like during the previous workshop - it will be not possible to pay with the credit card); in all cases we would like to ask you to make the registration in advance;

.. the central theme for the workshop dinner is not clear yet, as we cannot be sure there will be a possibility to arrange again a curling dinner, but you can be sure we will spend again a fascinating evening;

.. publication of the volume of the extended abstracts will be this time probably on the Web.

Please, if you have any question, do not hesitate to contact me.

Kind regards and really looking forward to meet you again in Prague

Matej
